### Little Yuseph

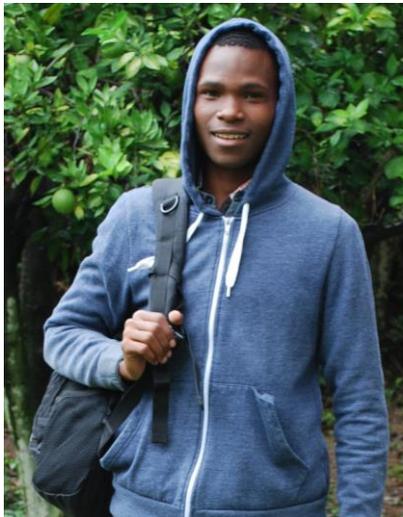

“Little” Yuseph is not so little anymore and his confidence, self-esteem and happiness have increased in line with his height. Having struggled with his Form I studies at Lake Secondary School several years ago, he has now returned to Lake to join Form V with an impressive Division II grade in his Form Four exams. He is taking A-Levels in Physics, Chemistry and Biology and will be living in school boarding accommodation to ensure he can focus fully on his academic work.

Of all the BTP children he is possibly the boy who has changed the most, and all for the good. He is being supported through school by Fourth Year students at St Albans School in the UK.

Steven Chacha remains at Bismarck Secondary School where he is completing his Form IV studies, living in school accommodation. He will sit his national exams in November.

The other Lake students have performed very well in their Form V exams. Ngusa (right) and Julius earned a Division III, which is a strong pass, while Sadicki achieved an impressive and unassailable Division I. All three have now started their Form VI courses at Lake at the end of which they sit their national exams (A-Levels) with results available in July 2017.

Steven Mautula (right) is supported by Year 7 children at Plymouth College in the UK. He is now working towards his two year Form VI qualification.

Mazera Justine has now completed his first semester exams at university with promising results. He earned 57% for Anatomy, 69% for Bio-Chemistry, 56% for Physiology, 59% for Behavioural Science and 67% for Ethics. Mary Barnabas starts her final exams in the middle of July.

### Thank you

Thank you once again to everyone who has contributed to the BTP over the last few months. The regular donations add up to ensure children stay in school while the special fundraising events makes an equally big impact

on the lives of young people in Mwanza. Many thanks in particular to the Fourth Form students at St Albans School who completed an inter-form challenge to raise funds to support “little” Yuseph through school. Their efforts included car-washing, cake sales, a junior Iron Man contest and a penalty shoot-out competition. All the hard work and fun has ensured that Yuseph will remain in school for another year and achieve further qualifications. Thank you.
