Premier Division Exam Results

Stephen Mautula has earned a very creditable string of B grades in his Form IV external mock exams. He gained Bs for Civics, History, Geography and Biology, with B+ grades for English and Maths and a C for Kiswahili. Overall, this gained him a Division II. Bismarck School finished 9th in the regional league table.

Yusufu Jumanne was not to be outdone. In his Form V mid-term exams (A-Levels) in September he earned 69% for English, 64% for History and 72% for Geography giving him a very rare Division I overall. Sadicki achieved very similar results and also achieved an impressive Division I grade.

Mazera was not to be left out! Having earned a Division II at the end of last year, he increased all three subjects (Physics, Chemistry & Biology) by a full grade and earned a Division I in his Form VI mock exams. Lake Secondary School finished 7th overall in the regional league table.

Achievement by degrees

Having worked their way from primary sponsorship through secondary school, Donald and Mary are now reaping the benefits of their hard work at university. Donald's degree will see him become a secondary school science teacher. His end of first year results are most encouraging. He earned five B grades and an A grade, with the grade descriptors ranging from "very good" to "excellent".

Maria Barnabas has just finished her work placement as part of her Finance degree and returns to Dar to start her Second Year on 13th October. At the end of September she wrote a note of thanks to her sponsors: "I am so grateful to express my sincere gratitude for your kind support. Thank you so much! My placement is wonderful, the staff are very social and cooperative. For sure I am having a good time here learning and experiencing the actual life. All the best, Maria."

Marco starts his degree at the University of Arusha in October. He will read for a Bachelors in Business Administration in Accounting and Education, which will keep his job prospects open. His hopes of studying Geology were dashed owing to the government's distribution of course places.

Thank you

The excellent exam results that the children are achieving is down to the donations made by very many people. Thank you to the Drama Department at St Albans School

for their contribution and to Mr Rose in Plymouth for his support. Brian Blatt in the US continues to sponsor several children through their courses and many others

around the world continue to make very generous donations. This newsletter should highlight the impact these donations are having on individual lives!
