
www.bananatreeproject.org Quarterly Newsletter: October 2017

We are now approaching the end of the semester in Tanzania with students looking forward to the Christmas break at the start of December. Those who have recently completed their Form VI studies are finalising their plans for the next step, with their new courses starting in January 2018.

Steven

Steven Mautula has almost completed his Sixth Form studies at Thaqaafa Secondary School in Mwanza. He earned a Division II result for his Form V studies last academic year and achieved a Division I grade for his July exams which bodes well for the national exams in May 2018. He is studying History and English, but his best grade is currently Geography.

HEADMASTER THAQAAFA SECONDARY P. O. Box 10290 MWANZA.

Chacha

Steven is studying alongside Chacha at Thaqaafa and has also recently performed impressively in the July exams. Chacha earned B grades for both History and Geography, and an A grade for Kiswahili, adding up to a Division I grade overall, the best grade available. While there remains plenty of work to be done between now and May, this certainly bodes well at this stage in the course.

Yuseph

Yuseph Batholomayo is looking forward to starting his Wildlife Management course in January. Maduhu studied this same course two years ago and passed with flying colours, leading directly into a good job helping to protect Tanzanian flora and fauna. Yuseph is currently working part time to prepare for his studies.

Sadicki

Sadicki's dream has come true. He has been offered a scholarship by the University of Dar es Salaam to study for a Bachelor of Science in Agriculture, Natural Resources, Economics and Business. Competition was strong as the university and department are so well-renowned, and the course guarantees employment with the government at the end.

Mazera

Mazera has now completed his second year of medicine. He spent two weeks recently on a placement looking at malnutrition. He starts his third year at beginning of November with a series of clinical placements when he will focus on applying his studies to practical patient care. He is really enjoying the course. Given his position ten years ago as a young boy in an orphanage without a place in school he has proved to be an impressive young man.

Thank you

Thank you to everyone who has contributed to the BTP. The regular donations add up to make a massive contribution to young lives. Sponsorship from Brian in the US through Afirmation continues to support students, while regular donations from supporters in the UK (such as Paul in Devon and Sarah Felt Tips) remain very gratefully received. Thank you also to Cam and Kathryn in Australia for their enormous support over the years. The students are able to stay in education simply because on the donations to the BTP. Thank you.

Ed Beavington
